There are two sets of typos in the published draft.

First, Equation (4) on page 585 reads

$$N_{jt} \equiv \min\left[\frac{N_{ijt}^1}{\overline{N}_{jt}^1} \div \left(\frac{s_{jt}^1}{S_{jt}}\right), \frac{N_{ijt}^2}{\overline{N}_{jt}^2} \div \left(\frac{s_{jt}^2}{S_{jt}}\right)\right]$$

$$= \lim_{\varrho \to 0} \left(\left(\frac{s_{jt}^1}{S_{jt}}\right)^{\frac{1}{\varrho}} \frac{N_{ijt}^1}{\overline{N}_{jt}^1}\right)^{\frac{\varrho-1}{\varrho}} + \left(\frac{s_{jt}^2}{S_{jt}}\right)^{\frac{1}{\varrho}} \frac{N_{ijt}^2}{\overline{N}_{jt}^2}\right)^{\frac{\varrho-1}{\varrho}}\right)^{\frac{\varrho}{\varrho-1}}.$$

There are three left parentheses missing in the second line. The equation should read:

$$N_{jt} \equiv \min\left[\frac{N_{ijt}^1}{\overline{N}_{jt}^1} \div \left(\frac{s_{jt}^1}{S_{jt}}\right), \frac{N_{ijt}^2}{\overline{N}_{jt}^2} \div \left(\frac{s_{jt}^2}{S_{jt}}\right)\right]$$

$$= \lim_{\varrho \to 0} \left(\left(\frac{s_{jt}^1}{S_{jt}}\right)^{\frac{1}{\varrho}} \left(\frac{N_{ijt}^1}{\overline{N}_{jt}^1}\right)^{\frac{\varrho-1}{\varrho}} + \left(\frac{s_{jt}^2}{S_{jt}}\right)^{\frac{1}{\varrho}} \left(\frac{N_{ijt}^2}{\overline{N}_{jt}^2}\right)^{\frac{\varrho-1}{\varrho}}\right)^{\frac{\varrho}{\varrho-1}}.$$

In addition, there are fifteen references to the "Census of Manufacturers" in the draft: on pages 578, 579, 585, 599, and 608 and page 14 of the appendix. The standard naming of this dataset is the "Census of Manufactures."
